## About the College:-

This institution started its glorious journey as a State Aided College on and from 1970. At the inception only two Honours Subjects – Commerce and Sanskrit were taught along with their general courses. At that time this institution initiates its teaching and learning in a rice-mill at the nearby areas of the locality. The college owes its origin to princely donation from **Late Sajanikanta Giri**, along with several other contributors. The foundation stone was laid down by His Holiness **Sri Sri Swarupananda Paramahansa Deva** on **26.01.1968**. Since its inception, the institution has committed itself to the goal of teaching and learning in the higher education, ensuring quality education in the best possible manner in order to spread the benefit of higher education in a very rural area of Paschim Medinipur of West Bengal. This makes its land mark in the history of Indian education system as the first "**LODHA** – one of the oldest tribes of Indian subcontinent" is graduated from here. This institution steps its 50 years of journey (Golden Jubilee year) its academic excellency both horizontal and vertical depth ensuing its Eighteen Honours courses and newly introduced Six Post Graduate courses that running successfully since 2017. Now we are planning to introduce some new subject in UG and non-lab based PG subject in Humanity and Social Sciences. In addition to it to give up the opportunity for further studies to the Post Graduate Students by introducing **Research Center** in our Institution.

## About the Department:-

Department of Botany started in 1989-1990 session with only B.Sc. General Course under Vidyasagar University. Honours course in Botany started on and from 2004-2005 session. Post Graduate studies opened on and from 2017-2018 session.

Several students of the department have established themselves in various sphere of society especially in educational sector, i.e., school & colleges as teachers. Among the girls many of our students have been employed as nurses in different Government and private hospitals. Few are employed in administrative jobs. Specially after the introduction of PG course in Botany the scope of employment has widened in larger scale.
